# LAMP SHADES & LIGHTING DETAILS

Lamp Shades come with the lamps but there are two pricing structures:

Domestic Drum Shades \$24  
white or linen

Small 10" bottom diameter  
Medium 13" bottom diameter  
Tall 12" bottom diameter

Danish Pleated Shades \$68  
white or linen

Small 13" bottom diameter  
Large 14" bottom diameter

these shades are very short and do not always cover the whole socket, if this bothers you we'd recommend the drum shade, which uses a harp.

Please inquire about our custom dyed silk or linen lamp shades.

Cloth covered cord can be ordered on any lamp for an additional \$10.

All lamps use standard bulbs of your choice (incandescent or LED) except those noted that come with a large LED or globe bulb.

All lamps are made with UL parts but a UL certification will cost extra. These are all considered portables and generally do not require UL certification for residential or commercial projects.

Most lamps here are made to order, feel free to customize height, width or color. We'll review to see if your request is possible given the nature of our handmade processes.
